DIGITAL CRAFTS

Full-Stack Programming | HOUSTON, TX

UNIVERSITY OF NORTH TEXAS

Interior Design | DENTON, TX

WORK EXPERIENCE

2015 – Current • WEB DESIGN, IT, & SOCIAL MEDIA

JUNIOR LEAGUE OF THE WOODLANDS, INC | SPRING, TX

- Oversaw and maintained the organization website, both the public and member sites
- Spearheaded the re-skin of a new public website, utilizing WordPress to build the site in preparation for go-live
- Assisted other committees by fulfilling IT requests, pulling reports and analytics, and maintaining the purchasing entity of our website

2016 – Current • MERCHANDIZING & INVENTORY ASSISTANT MANAGER, CUSTOMER SERVICE SPECIALIST, BRIDGE JEWELRY SPECIALIST, & SALESPERSON

NORDSTROM & NORDSTROM RACK | HOUSTON & AUSTIN, TX

- Assisted with recruiting, hiring, developing, and motivating employees, while training and educating a 30-person team
- Analyzed sales trends to create coordinated business strategies, while responsible for men's, women's, and children's apparel departments
- Utilized sales figures and projections to analyze trends within a particular brand

2016 • PR & MARKETING

THE GIVING GOWN FOUNDATION | SPRING, TX

- Strategized a marketing plan and implemented it, while delegating responsibilities to a 15-person team
- Created graphics and copy for a variety of purposes, in addition to maintaining a cohesive theme in branding
- Organized press releases and sustained contact with various media outlets

FEATURED PROJECTS

Houston Exponential   **August 2018**

https://houston-exponential-demo.herokuapp.com/ | https://github.com/mollywood/HoustonExponential

- Utilized: JavaScript, Node.js, PostgreSQL, Handlebars.js, Bcrypt.js, Bootstrap, Sequelize, Express.js, jQuery, CSS, AJAX, JSON, Passport
- This is a collaborative project which sought to create a comprehensive database of Houston-area start-ups, as well as investors and services. With this web application, users can add and update their business and allow others to search and review.

Ledgr/Stylephile   **July 2018**

https://ledgr-app.herokuapp.com/index | https://github.com/mollywood/Ledgr_App

- Utilized: JavaScript, Node.js, PostgreSQL, Mustache.js, Bcrypt.js, MaterializeCSS, Masonry, Sequelize, Express.js, jQuery, CSS
- Full-stack project was a collaborative effort, which sought to create an inventory management and e-commerce solution for small retailers
- With this, store owners with administrative access can keep track of and update their inventory, which then affects the products available for purchase
- Registered users can then add items to their cart and check out, which changes the stock on hand on the admin side

Fake News Or Nah   **June 2018**

http://fake-news-or-nah.surge.sh/ | https://github.com/mollywood/fake-or-nah-

- Utilized: JavaScript, Reddit API, Firebase, HTML, CSS, Bootstrap
- Collaborative project to create a relatively simple game which tests the user's ability to differentiate fake news (for the purposes of this app, "fake" means articles from satirical sites, i.e. The Onion) from real, if outlandish, news headlines
- Uses Reddit API to constantly update Firebase database as new articles are submitted on r/TheOnion and r/nottheonion for endless gameplay

Pool Table Management   **May 2018**

https://github.com/mollywood/PoolTables

- Utilized: Python, JSON, SMTPLib
- Created an app to manage pool tables for a university games center, allowing administrators to check out tables for customers and keep track of the time used and charges incurred
- Stores information daily in a JSON file, which is then emailed to the admin at the end of each day

Junior League of The Woodlands, Inc.   **August 2016**

www.jlthewoodlands.org

- Utilized: WordPress
- Entirely re-vamped public site for the non-profit group, the Junior League of The Woodlands
- Re-skin project required communication with the entire board and multiple committee members
